Relevant Experience

Lead Frontend Engineer (Angular + React) • Code Agrius | Agrius IT 2025— Present

- Leading front-end development of ERP modules with Angular 19, building reusable components and improving overall UI/UX.
- Developing modern web solutions with Next.js 14, ensuring performance, responsiveness, and scalability.
- Collaborating with backend teams to integrate APIs, streamline workflows, and deliver enterprise-level solutions.

Junior Frontend Developer (Angular) • Aims Soft 2022 — 2024

- Led front-end development of ERP solutions with Angular 17.
- Migrated applications from Angular 13 to 17, ensuring compatibility and improved performance.
- Enhanced UI/UX using Angular Material to build responsive and accessible interfaces.
- Integrated finance, inventory, and reporting modules for cohesive workflows.
- Applied best practices in TypeScript, ES6+, and Git to improve code quality and team collaboration.

Frontend Developer (React) • Eziline Software House Pvt Ltd Oct 2022 — Dec 2022

- Build, style, and ship high-quality websites, design systems, mobile apps, and cross platform digital experiences for a diverse array of clients using technologies such as JavaScript, React, CSS.
- Assisted in developing user-friendly interfaces and optimizing web applications.

Professional Projects

Oreius ERP ([link](#))

- Worked on multiple core modules including CRM, Approval Hierarchy, and Employee tracking and Annual Leave Charts, focusing on scalable front-end development with Angular and seamless module integration.

Guest House Management System

- Built a booking and reservation system with real-time revenue reporting, billing, and food & beverage management with KOT generation.

School Management System

- Developed the Exam module (scheduling, date sheets, grading) and report card generation, while contributing to Fee Management.

FMIS & PayRoll

- Integrated financial management and payroll systems with Guest House and School Management, enabling accurate financial tracking and reporting.

Skills

Programming Languages

JavaScript (ES6+) • TypeScript • HTML5 • CSS • Sass • Scss • Python

Libraries & Frameworks

Angular • Angular Material • React (Next.js) • Framer Motion • RxJS • NgRx • PrimeNG • Tailwind CSS • Bootstrap • Chart.js • ApexCharts • NgCharts • Heroicons • PrimeIcons • SCSS/Sass • Firebase • Express.js • Node.js

Tools & Platforms

Git • GitHub • Netlify • Firebase • Webpack • Figma

Certifications

JavaScript Basics • HackerRank

Earned certification by completing an online test assessing core JavaScript concepts such as functions, loops, and object manipulation.

JavaScript Intermediate • HackerRank

Earned certification by completing an online test covering advanced topics such as closures, asynchronous programming, and array methods.

Automate Boring Stuff with Python • Udemy

Developed practical Python skills for automating tasks such as web scraping, file handling, and data manipulation.

Education

Virtual University of Pakistan

BS Computer Science 2019 — 2023
